

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

divisions: those plants poisonous to animals and those poisonous to man.

Adjournment followed.

B. O. DODGE,
Secretary

NEWS ITEMS

A garden of Shakespeare's plants was dedicated in Central Park, New York City, on April 24, with exercises by the Permanent Shakespeare Birthday Committee. Dr. E. B. Southwick, for many years the City Entomologist, who planned the garden, is to have charge of it.

The announcement of the Biological Station of the University of Montana has been issued. The courses, which are held at Yellow Bay, Flathead Lake, Montana, extend from June 19 to August 18, and cover the usual ground. Further information may be had from Morton J. Elrod, Missoula, Montana, whose address after June 15 will be at the summer Biological Station.

On April 22 the cornerstone of the structure which will complete the building and greenhouses of the Brooklyn Botanic Garden was laid with brief ceremonies. A spring inspection of the grounds followed by a tea was held at the New York Botanical Garden on May 4, and at the Brooklyn Botanic Garden on May 9. At the latter institution memorial trees were planted by Mr. Alfred T. White and Mr. A. Augustus Healy.

Dr. Edgar W. Olive and Professor H. H. Whetzel have returned from Porto Rico where they have been collecting fungi.
